FSG SIGNS · CAPABILITIES

Your Brand on Every Building

Sign programs for one storefront, new locations or a national rebrand.

FACILITY SOLUTIONS GROUP · FSG SIGNS

WHY THIS MATTERS

The Brand Moved. The Buildings Follow.

A new name, a merger or a new location only lands when every building matches. Your signs are where customers, crews and partners see your brand first.

- **Every site, one standard**
  Same letters, same color, same placement, coast to coast
- **A fixed window**
  Surveyed, built, removed and installed on your schedule
- **Live operations**
  Sites that cannot stop for a sign change
- **One accountable vendor**
  Survey to sign-off, end to end

THE APPROACH

One Team, Survey to Sign-Off

Design, fabrication, permitting, removal and install under one contract, backed by FSG's national electrical footprint.

HOW IT WORKS

Four Phases, One Accountable Partner

PHASE 1

Site surveys

Every site photographed and measured. Mounting surface, structure and power confirmed before anything is built.

PHASE 2

Fabrication

Channel letters, cabinets and panels built to your brand standard. Install kits and mounting hardware included.

PHASE 3

Packaging & freight

Letter sets and kits crated for the road. Freight estimated per site, actuals approved by you.

PHASE 4

Removal & installation

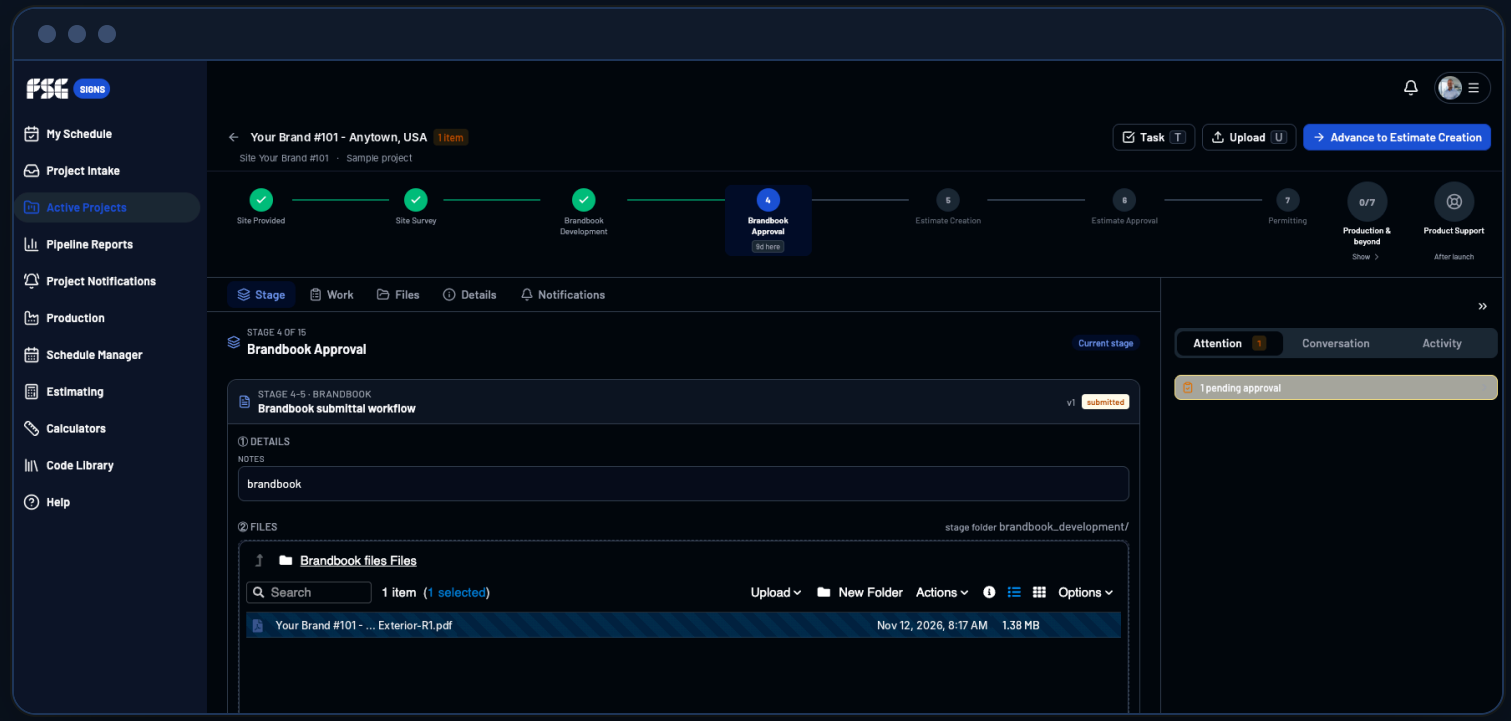

Old signage removed and disposed of. New signs installed where your standard and the survey say.

THE FSG SIGNS APP · SAMPLE VIEW

Every Site, Tracked Live

Each of your sites runs as its own project, moving through the same 15-stage workflow.

- **One stage tracker per site**
  Where every site stands, at a glance
- **Versioned submittals**
  Drawings, approvals and files in one place
- **Nothing advances without approval**
  Pending approvals flagged until cleared

FLOW DEMO · YOUR PROJECT IN THE APP

Every Step You Asked For, Tracked

1 · YOUR SITE LIST

Site Provided

Each site set up as its own project with a work order, site contact and priority rank.

2 · PHASE 1

Site Survey

Bucket-truck visit: mounting surface, structure, corner measurements, existing-sign inventory.

3 · DESIGN

Brandbook Development

Site-specific sign drawings from your brand standards, colors and survey measurements.

4 · YOUR SIGN-OFF

Brandbook Approval

Drawings submitted to your team for approval before anything is priced or built.

5 · YOUR COST TEMPLATE

Estimate Creation

Per-site pricing built on your five-line cost template.

6 · YOUR SIGN-OFF

Estimate Approval

You approve each site's price. Out-of-scope items come as change orders first.

7 · PERMITS

Permitting

Permits pulled and filed; local, landlord and airport criteria tracked per site.

8 · PHASES 2 – 4

Production & Beyond

Fabrication, packaging and freight, removal of old signage, install of new letters.

9 · AFTER LAUNCH

Product Support

Warranty and service on every sign after install.

FABRICATION

Built in Our Own Shop

Your letters come out of FSG's 95,000 sq ft fabrication facility in San Antonio, Texas. Design, build and quality control stay in one place, so every site matches.

- **UL-certified channel letters**
  Built to code, exterior-durable, weather-resistant
- **Your brand color, matched**
  Your Pantone standard on every set
- **Your choice of illumination**
  Non-lit, face-lit LED or reverse-lit
- **Raceway or flush mount**
  Chosen per wall from survey findings
- **10-year lifetime warranty on LEDs**
  Illumination covered for a decade
- **5-year sign parts & labor warranty**
  Parts and labor covered for five years

CONCEPT RENDERING · CHANNEL LETTERS

Three Ways to Light Your Brand

NON-LIT

Painted brand-color faces

No power needed at the sign. Reads clearly by day.

FACE-LIT LED

Lit through the face

Your brand color glows after dark.

REVERSE-LIT

Halo on the wall

Solid faces, soft white halo behind each letter.

Illustrative concept. Final size, mounting and illumination confirmed by site survey.

INSTALLATION

Crews Wherever You Have a Site

Self-performed crews with our own trucks and cranes, plus a vetted installer network for every market on your list.

- **2,000+ affiliated installers**
  Coverage for every market on your list
- **43+ FSG locations, 3,500+ employees**
  National electrical company behind the sign team
- **Licensed electricians on staff**
  Power at the sign handled by the same team
- **One project manager**
  Single point of contact for every site and every crew

PROPOSED PHASING

Highest-Priority Sites First

Your priority ranking sets the order. Regional grouping after the first wave keeps travel cost down and crews moving.

- **Wave 1: your top priorities**
  Your highest-priority sites first
- **Regional waves**
  Remaining sites batched by geography, in priority order
- **New facilities**
  Timed with each general contractor's schedule
- **On your timeline**
  Schedule set jointly with your team

PROVEN AT SCALE

Brands That Rebranded With FSG

NATIONAL ROLLOUT

Wesco

Anixter-to-Wesco rebrand: site surveys, drawings, removal and new channel letters, monuments and wayfinding.

NEW-STORE ROLLOUT

H-E-B

Complete store sign packages: site plan, elevations with code-allowed sign area, every sign through client approval.

NATIONAL ROLLOUT

Duluth Trading Company

Turnkey signage nationwide: design, permitting, fabrication and installation from one provider.

MULTI-UNIT

Applebee's

Restaurant signage delivered across the country.

ONE PARTNER

More Than Signs

Signs are often the first step. The same team handles the electrical, lighting, energy and building technology behind them.

Facility Solutions Group · Since 1982

Signs
Channel letters, monuments, wayfinding, ADA, repair and maintenance

Lighting & Electric
Interior and exterior LED, electrical service and construction

ECM Projects & Roll-outs
Solar, EV Charging and Large ECM Projects with measurable savings

Building Automation Systems (BAS) & Technology
Controls and building technology for your facilities

NEXT STEP

Let's Start With the Surveys

Send us your site list and our survey crews start at your top-priority sites.
